# OUR ESTEEMED FACULTY

Our respected faculty at Dr. MPS Group of Institutions is made up of intellectuals and experienced professionals who are all well-known in their fields. Their knowledge fosters a culture of academic excellence and leadership among our students.

Working together, our faculty members convey not just theoretical knowledge but also practical expertise, giving students a comprehensive comprehension of their disciplines. Students go on a voyage of discovery, fueled by their leadership and supervision.

Our teaching methodology combines classroom learning with real-world application, enabling students to achieve success in all aspects of life.

# STATE OF ART INFRASTRUCTURE

## Our Luscious Green Grounds

The Dr. MPS Group of Institutions core values include a deep regard for environmental preservation and sustainability. Our campus is surrounded by a magnificent environment featuring vast verdant parks, lush grass, and flowing waterfalls. This setting represents our steadfast dedication to protecting the environment.

## Scholar's Haven (Library)

In every institution, the Library stands as the vibrant nucleus, a sanctuary of knowledge. Embracing the essence of this digital era, we have meticulously curated an extensive collection of books, journals, magazines, and periodicals, fostering an unparalleled reservoir of wisdom. Our library is a treasure trove where students can delve into rare volumes, otherwise elusive or exorbitantly priced in the market. As we strive towards excellence, we envision our library adorned with the comfort of air-conditioning, ensuring a conducive environment for scholarly pursuits.

## The Silicon Valley

Welcome to Silicon Valley, our institution's premier computer lab where innovation meets comfort. Designed with meticulous attention to detail, our state-of-the-art facility provides students with a relaxing yet technologically advanced environment. Equipped with the latest computers and essential software, our lab upholds global standards for learning.

## The Conference Hall

With meticulous attention to detail, our conference hall serves as the ideal environment for nurturing the intellectual growth and professional development of our distinguished students. It is in these exceptional spaces that minds are sharpened, ideas are exchanged, and managerial acumen is cultivated.

## OUR C-LABS

### Centre for Leadership and Advanced Behavioural Studies

C-LABS, or Chairperson's Laboratory, stands for the Centre for Leadership and Advanced Behavioural Studies. Developed by Squadron Leader AK Singh, founder of Dr. MPS Group, this unique program guides you step-by-step to win respect, admiration, and esteem by developing personal poise and making yourself more assured, positive, and dynamic. Most people never reach their full potential, but C-LABS can help you do just that. The program offers practical, hands-on methods to develop your power to influence others. It bridges proven principles from research and experience to practical situations in everyday student life.

Through C-LABS, you'll become more assertive and learn how to dress, walk, talk, and generate a sparkling personality that attracts people like a magnet. You'll draw up a blueprint for living, organizing yourself and your habits to prepare for big successes. Unlike typical PDP programs, C-LABS focuses on discovering your inner self and unlocking your hidden potential. It empowers your mind and helps you realize your true self. By taking these simple steps, as shown by Squadron Leader A.K. Singh, you can transform your life and become a wonderful new you. Rise to your true stature and assume greatness, self-assurance, and confidence with C-LABS.

# BIOTECHNOLOGY

Biotechnology is a modern branch of biological sciences that integrates principles of biology and engineering to enhance industrial productivity and laboratory research for human welfare through genetic manipulation. This research-oriented field combines genetics, biochemistry, microbiology, immunology, chemistry, agriculture, healthcare, pharmaceuticals, animal husbandry, ecology, biostatistics, bioinformatics, and engineering sciences.

## SCOPE

The biotechnology sector in India holds vast potential for professionals to address industrial challenges and advance research in areas such as medicine, vaccines, diagnostics, productivity, dairy technology, germplasm conservation, livestock management, molecular breeding, improved seeds, insecticides, bio-fertilizers, biodegradation, and waste management.

Since the late 1980s, biotechnology in India has grown significantly. Initially, around 400 firms focused on food, drugs, and other bioproducts. Today, the sector includes over 2,000 firms and 25,000 professionals, with projections to exceed 70,000 professionals. This growth features 35% in technical services and 15% in management roles, demonstrating a high demand compared to other sectors.

## B.Sc. BIOTECHNOLOGY (B.Sc. BT)

Biotechnology is the fastest-emerging career option in India. This field offers excellent career and growth prospects with very high salaries and the students can pursue a dream course at the graduate level. B.Sc Biotechnology students can foresee exciting job opportunities in the following sectors:
